

REFRIGERATION/FREEZER HIRE AGREEMENT – DELIVERY ACCEPTANCE

SITE

The trailer must be sited on a flat or level hard standing base provided by the customer. If the trailer is to be sited in a building or marquee, then adequate ventilation must be available to maintain an ambient temperature of no more than 35 degrees centigrade. The trailer must also be positioned slightly nose-down to allow defrost water to drain down the external drain pipe and where fitted, the telescopic prop stands must be lowered to carry the weight of the contents.

POWER SUPPLY

Power supply requirement is a standard 13 amp three pin socket for a 16 amp c form socket. The mains power socket must be no more than 75m from the unit (with a 16 amp cable). Event Fridge Hire will supply all necessary electrical cables. Under no circumstance can other cabling be used. If using a generator, it must have a minimum output of 3 KVA and not be allowed to run out of fuel. Please always ensure that correct fuel is used. No liability will be taken for incorrect fuel usage. **Please note:** Failure to follow these instructions may cause of voltage drop and unit damage. Subsequent repairs will be added to the invoice.

TEMPERATURE

Once your unit has been delivered, commissioned and the set temperature agreed, then you will need to monitor it on a regular basis (every 3 hours is ideal) to ensure that the temperature is maintained. The unit is designed as a holding room and therefore content entering a trailer must be at an appropriate temperature between +5 degrees centigrade and +10 degrees centigrade. For a freezer below 0 degrees centigrade.

STORAGE

Contents to be stored must not only be an appropriate temperature, but please also ensure that containers are food safe and free from contamination. It is also important not to stack contents in too tightly as this prevents air flow – adequate ventilation helps to maintain the temperature.

SHELVING

If you have shelving in your trailer, please note that each shelf holds up to 35kg evenly spaced weight per shelf and 175kg in total. Keep centre aisle clear.

ENTERING AND LEAVING THE TRAILER

STEP: Please mind the step on entering and leaving the trailer. If it gets wet, please wipe it down to help prevent slipping.
DOOR: The door must only be open to allow access - leaving it open for a long period will cause large fluctuations in temperature and this will in turn cause the unit to ice up and fail. Every door is fitted with an internal door latch to prevent anyone being trapped inside. Please ensure that all uses are shown where this is.

MOVING THE TRAILER

Please do not attempt to move or tow the trailer. We do not insure hirers to tow the trailer and all trailers are also fitted with anti-theft devices at the time of delivery. If you need to move one urgently then please call us and we will give you full instructions and insurance permission.

BREAKDOWN

Any refrigeration malfunction/damage/breakdown/misuse must be reported to Event Fridge Hire immediately. We will always endeavour to arrange technical back up or provide a replacement trailer in the unlikely event of a breakdown.

CLEANING

All units and shelving are cleaned prior to delivery. Please ensure that it is returned to in a reasonable condition. Shelving should be wiped down and the floors swept or mopped if there has been a spillage. If the unit is returned in a dirty condition a £50 cleaning charge may be enforced.

LOSS OF ITEMS

Any loss or damage of the below items will be charged for:
Keys £10. Padlocks £15. Wheel clamps £100. Hitch locks £100.
Power leads £25. Shelving units £150 per unit. All prices are subject to VAT.

I have read and understood the safety and operating instructions and confirm the condition of the trailer as above. I also confirm that I have taken delivery of the other items listed above and take responsibility for their safe keeping. I understand that if lost or damaged charges will be made.

I have read and agreed terms and conditions.

I understand that under no circumstances can Event Fridge Hire be held responsible for loss of contents/produce held within the trailer, and that Event Fridge Hire will not be held liable for any accidents or third-party injury that occurs during the use of the freezer.
